New v4

Equity Maps® v4 Features

Elevate and engage the voices in your classroom.

Show students the power of reflection, collaboration, & equitable dialogue.

Created by teachers, for teachers and their students!

www.equitymaps.com @equitymaps

Feature	Standard	Premium
Quickly set-up your class or group to map the dialogue, record interactions, & track data.	✓	✓
Playback the interactions in real time or fast forward and project for your class or group	✓	✓
Playback audio of the discussion or for each participant – enhanced participant analytics. NEW!	✓	✓
Save groups for quick & easy access for "mapping"	✓	✓
Feedback frames with data analytics: • Time & frequency spoken for all participants • Gender equity for your class or group • "Equity Factors" of overall group equity **New** Select who/what you want to include in the data - Now easy to exclude teacher talk and focus only on equity among students. Include/exclude any participant.	✓	✓
Add up to 20 participants per group	✓	✓
Add up to **40** participants per group (Match new icon colors & patterns w/ students outfits)		✓
Create adjustable tables for **custom classroom seating**. Perfect for Socratic seminars or round table discussions, or for class observations to track teacher talk time.		✓
Checknotes to track types of contributions of each student or participant. **You can track....** • Types of questions asked • Text references made • Paraphrases formed • Checknotes are **Completely Customizable!** ✓ Notes		✓
Choose among 14 Checknote templates or create your own: • Socratic Seminars, Harkness* style discussion, text based discussions, Spider Web Discussions™, Common Core Speaking & Listening, Approaches to Learning (ATL), Oracy standards, & much more.		✓
New **Enhanced Participant Analytics** – Debrief with students individually from one screen: see each time the student spoke & playback what they said, or play from the person who spoke before/after, review notations for that student, participation data, or Checknotes		✓
New **Identity Markers** – Measure participation within your class or group according to customizable categories such as age, grade, language level, race, or anything you'd like to track! Add up to two categories w/custom characteristics.		✓
New **Take notes and leave feedback during the discussion** – Your comments attach to the speaker so you can review the discussion with each student or provide instant feedback. Perfect for guided reflection & 1:1 feedback.		✓
Import class lists from .txt file and save time!		✓
Expanded data in the Feedback Frames		✓
Export data to a CSV file to track over time using Excel or Numbers. Expanded in v4.		✓
Available with **Apple's Volume Purchase Program (VPP) discount for schools** Still no subscription required for v.4		✓
